Protects against the spills
and messes you might miss.

Resists water.
Ends Worries.

STAY.SAFE

The antimicrobial surface for laminate floor

ANTIMICROMIAL
ANTIBACTERIAL ANTIFUNGAL

Health and safety is the highest priority of all, whether it's at home, at work or during leisure time.

With the antimicrobial laminate floor from BBL FLOOR, you can offer your customers safety and ensure all-round well-being.

STAY.SAFE

Antibacterial

Antifungal

2 in 1 function:
Active protection against bacterial and fungi.

Effective 24/7 as the active agent is retained until the wear layer surface is worn out.

Stress-free safety thanks to the antimicrobial agent integrated into the product

Application areas

Medical practices
& hospitals

Sports facilities

Living spaces

Restaurants &
hotels

Schools &
day care centres

Hostels

Commercial spaces &
shop fittings

What is the difference between antimicrobial and antibacterial?

An antimicrobial surface is effective against a wide range of microbes, including bacteria, mould, fungi, with a permanent anti-bacterial function.

DIGITAL PRINTING DESIGN

Recently, we have developed a number of 30 sqm non-repeat imitation solid wood floor of different styles suitable for our customers. In addition to the small repetition rate, digital printing has more advantages than traditional printing in reflecting the texture, color and luster. In a certain range, it breaks through the boundary that cannot be transcended by traditional designs. It is beautiful and generous as a whole, with outstanding style, and meets the needs of most users.

- Unlimited perimeter
- No Repetition
- Rich Color
- Strong sense of solid wood

The advantage of digital printing paper

Color gamut range

Color gamut range is Wider than cylinder printing
More colorful
Whiter than white, Darker than black
No Repeat

Safety

No volatile solvent in ink, the finish paper is innocuous.
