Do you know how to learn English words? First, make a list of them. A word list is a group of words that have the same **part of speech**.

Here are some lists.

- A list of family nouns ( mother, father, sister, brother, uncle, etc. )
- A list of verbs ( be, go, do, have, like, etc. )
- A list of weather (天气) adjectives ( rainy, sunny, snowy, windy, cloudy, etc. )
- A list of prepositions of place ( above, below, over, under, 49, etc. )

Now, how do you learn these word lists?

There is something you can do:

Write a short story with all of the words. The story is only to make it interesting!

Let's say the verbs: be, go, do, have, and like.

You can write a short story, like this,

"Sue is a student. She goes to school on foot. At school, the students have lots of homework every day. But she doesn't like doing homework at all."

What about other word lists?

46. The Chinese meaning (意思) of "part of speech" is \_\_\_\_\_.

48. What does "it" in the sentence "The story is only to make it interesting!" mean?

A. How to make a word list                      B. How to learn English words  
C. How to write a story                      D. How to tell the part of speech

B

If you go into the forest with your friends, stay with them. If you don't, you may get lost (迷路). If you get lost, this is what you should do. Sit down and stay where you are. Don't try to find your friends—let them find you. You can help them find you by staying in one place. There is another way to help your friends or other people to find you. You can shout or whistle (吹口哨) three times. Stop. Then shout or whistle three times again. Any signal (信号) given three times is a call for help.

Keep up shouting or whistling. Always three times together. When people hear you, they will know that you are not just making a noise for fun. They will let you know that they have heard your signal. They will give you two shouts or two whistles. When a signal is given twice, it is an answer to a call for help.

If you don't think that you will get help before night comes, try to make a little house with branches (树枝). Make yourself a bed with leaves and grass.

When you need some water, you have to leave your little house to look for it. Don't just walk away. Get small branches and drop (扔下) them when you walk to go back again easily. When you are lost, the most important thing to do is to stay in one place.

51. If you get lost in the forest, you should \_\_\_\_\_.

C. walk around the forest                      D. shout as loudly as possible

53. Which of the following sentences is TRUE according to the passage?

C. It's a good idea to give a signal three times if you need help.  
D. You cannot go away to find water when you are lost.
54. What's the meaning of the underlined sentence (划线句子)?  
A. Leave branches to find your way back.                      B. Pick off branches to make another house.
