VISION

To be the most honorable company in the home building materials industry.

MISSION

Create a healthy and beautiful life worldwide

VALUE

Be faithful
Be hardworking and thrifty
Be modest and prudent
Be innovative

Established in 1991, Jiangsu Beier Decoration Materials Co., Ltd (also known as BBL) is located in Changzhou, Jiangsu province, a professional manufacturer of Vinyl Flooring, Laminate Flooring as well as Engineered wood flooring. We have more than 25 years of experience in construction materials and have a good reputation in this field. Our products have been exported more than 128 countries worldwide.

We have implemented a strict and complete quality control system, which ensures that each product can best meet customers' quality requirements. Besides, all of our products have been strictly inspected before shipment. We have attained ISO9001:2008 certification for our management system and we are now using Lean Manufacturing System to improve our efficiency of internal management.

In 2010, BBL set up "Product Research and Developing Department". Jointly with Nanjing Forestry University, BBL has established "BBL Floor Engineering Technology Research and Developing Center". Every 3 days, one new color will be created by this center. This center will develop any new flooring color based on different market's flooring style requirement.

We will insist on our business concept, which is "Following the market need, based on professional marketing, guaranteed by the creditable service" to build BBL as a professional brand and providing satisfactory products and service to clients all over the world. BBL will commit to make "BBL" brand as a world wide known brand both in the international and domestic market for various building materials.

BBL288-2

Exclusive Designs

- Patent protected. All the designs are inspired from customers' requirements.

We use best plasticizer DOTP and 100% virgin material

Environmentally

-No VOC, No Toxin, EO, We use one of the best plasticizer DOTP. We have passed certification of Floorscore, Green Guard Gold and Eurofin's Indoor Air Quality Comfort.

Prevent Termite

-This material is effective to anti termite

Bio

-Based plasticizer is made from 100% organic raw materials.

Water Proof

- When exposed to water, planks will not swell, buckle or lose integrity.

Anti-microbial

-Good in hospitals and schools as well as in kid's nursery rooms.

Locking system

-With 20 years of experiences in profiling. We have the easiest locking system to ensure the strongest pulling strength.

BBL
TECHNICAL DATA

VINYL LOCKING

BBL Vinyl Locking series combines beautiful and realistic wood and tile patterns with easy locking system. Durable and water-proof, this is a high-end resilient flooring. We provide a vast array of options of colors for your choices. It's suitable to be used at kitchen and bathroom.

Size	936 x 150mm, 1220 x 150mm, 1220 x 180mm 1220 x 228mm, 1500 x 228mm
Thickness	3.2mm, 4.2mm, 5.0mm
Wearlayer	0.1-1.0mm

- UV-coating
- Easy & Strengthened locking system

ANY ROOM AT,
BELOW OR ABOVE GROUND LEVEL

BATHROOM FRIENDLY

PROTECTION

100% WATERPROOF

WARM TO THE TOUCH

ANTI SLIP

EASY CLEAN

ADVANTAGES

- Water proof, will not swell when exposed to water.
- Easy-to-install with glueless click system.
- Minimal floor prep.
- No need to acclimate the floor.
- Perfect foot-sense (for product with attachment).

BBL908-10

ENGINEERED VINYL PLANK

Composite Vinyl Floors combines the resilience of LVT and stability of composite vinyl core, with very easy click system, inherit the waterproof feature from LVT and WPC, as stable as laminate floor. Cork attachment is available to attain a fantastic quiet effect.

This is a very high end product, more environmentally friendly than laminate floor, as resilient as LVT, waterproof, easy for installation. It's suitable to be used for commercial and residential areas.

Size	1217 x 146mm, 1217 x 178mm, 1500 x 225mm 932 x 146mm, 1803 x 225mm, 596 x 296mm
Thickness	5.5mm, 6mm, 6.5mm, 7.5mm
Wearlayer	0.3-1.0mm

- UV-coating
- EVA & IXPE & Cork attachment available
- Easy & strengthened locking system

WHAT IS BBL DIAMOND FLOORING?

BBL Diamond SPC flooring is an upgrade and improvement of LVT and WPC that is manufactured with a rigid stone plastic composite (SPC) core. It is high density core allows it to have greater indentation resistance and dimensional stability than other luxury vinyl.

BBL Diamond flooring is also enhanced with protective polyurethane allowing it to resist scratches and dents. And the product is formaldehyde free, making for a completely safe flooring solution for both residential and public environments.

DIAMOND SPC

- UV Coating
- Wear Layer
 - Excessive wear protection
- Decor film
 - Wide color selection
- SPC core
 - Waterproof core made of highly durable SPC
 - Density of 2000KGS/M3
 - Strong locking system
- Foam Underlayment (optional)
 - Advanced sound reduction
 - Added comfort

Painted Bevel

ENDLESS

Endless series is amazing, It's beautifully refined graining and natural under glow offers a rustic sophistication that can compliment a wide range of looks in any home including Modern, Traditional and Rustic, what's more, it will be a 10 planks repeat collection, which bring more real feeling.

BBL-ED001

NEGATIVE ION TEC.

As you know, Home furniture and building materials at everyone's home release continually some extent of formaldehyde and other volatile organic compounds, including Most of the odors, bacteria, smoke, etc. in the air, they are all positively charged and we call them positive Ions, which are harmful to human health.

Under normal temperature and normal conditions, water and oxygen in the air cannot be negatively charged to negative ions. However, under the action of strong electromagnetic field, this kind of transformation occurs.

The reason why BBL's Negative Ion Tec. floor can produce negative ions is that during the production process, a layer of material with positive and negative electrodes is attached to the floor surface, which is called negative ion catalyst (common name is tourmaline). The water in the air enters the electromagnetic field formed by the positive and negative electrodes. , it will turn into negative ions, which can be neutralized by the positive Ions until there is no charge, and make the air purified.

Hill top
-1980 per cm3

Waterfall

-1000 per cm3

**EXAMINATION ON
CONCENTRATION OF NEGATIVE IONS**

WHAT IS LITEBACK?

LITEBACK®

Liteback® is a core technology for thermoplastic flooring, i.e. LVT/SPC/WPC.

How does it work?

By using a grooving unit, grooves are milled on the backside of the floorboard. The grooving unit can be integrated in the regular production process thereby eliminating the need for extra handling of the panels. The material that removed in the process is recycled back into the production process, thereby reducing material consumption with up to 20%.

Data brings you closer to Liteback®.

In 2017, sales of LVT/SPC/WPC lock floor in Europe exceeded 60 million square meters. Imagine how much benefit these floors would bring if they all used Liteback® core technology. Valinge did a calculation and estimated the impact: let the data speak.
