Established in 1991, Jiangsu Beier Decoration Materials Co., Ltd (also known as BBL) is located in Changzhou, Jiangsu province, a professional manufacturer of Vinyl Flooring, Laminate Flooring as well as Engineered wood flooring. We have more than 25 years of experience in construction materials and have a good reputation in this field. Our products have been exported more than 128 countries worldwide.

We have implemented a strict and complete quality control system, which ensures that each product can best meet customers' quality requirements. Besides, all of our products have been strictly inspected before shipment. We have attained ISO9001:2008 certification for our management system and we are now using Lean Manufacturing System to improve our efficiency of internal management.

In 2010, BBL set up “Product Research and Developing Department”. Jointly with Nanjing Forestry University, BBL has established “BBL Floor Engineering Technology Research and Developing Center”. Every 3 days, one new color will be created by this center. This center will develop any new flooring color based on different market’s flooring style requirement.

We will insist on our business concept, which is “Following the market need, based on professional marketing, guaranteed by the creditable service” to build BBL as a professional brand and providing satisfactory products and service to clients all over the world. BBL will commit to make “BBL” brand as a world wide known brand both in the international and domestic market for various building materials.

Flowing years

In September, maple leaves gradually turn red, which reminds me of beautiful maple wood. Maple wood is compact and delicate. And its patterns are beautiful and elegant, sometimes with bird-eye or tiger-back patterns in it. This series contains 6 colors for your selection.

Poetry of the Tang Dynasty

The texture is free and vivid, full of poetry, as if seeing the flying crane, the swaying boat, the magnificent sunset, the hazy drizzle.

The secret of the Holy Grail

You're playing the game of life. Sometimes you win and sometimes you lose, so there are both positive and negative consequences. To accept both the positive and the negative, you need to find that special place inside of you in which you can just be. From that vantage point, wins and losses are equally a part of trading. That metaphor, to me, is the real secret of the Holy Grail.

Andromeda Galaxy

The Andromeda galaxy M31 is the nearest giant spiral galaxy to the Milky Way galaxy. She is not only of greater mass, but also at least 1.6 times the diameter of the Milky Way galaxy. The Andromeda galaxy is about 2.5 million light-years away from earth. Astronomers predict that in 4 billion years, the Milky Way galaxy will collide with the Andromeda galaxy and eventually merge into a huge elliptical galaxy.

Once Upon a Time

This design selects the best-selling solid wood floor in export for scanning, which is clean and fresh. During the printing process, a certain proportion of white ink will be added to the blue ink to make the overall appearance soft and hazy, as if covered with a layer of veil, full of mystery.

Sand and Pearl

The transformation from sand to pearl needs a soul that is constantly striving for success. It also needs to bear frustration, plainness, and neglect. Only in this way can we complete the transformation of sand and shine on the beach with brilliant light! The design has rich layers, which adopts fine white grain, light charcoal burning, and white ink printing.
